

# Why BIA GV? Why NOW?

Every additional member increases our ability in fighting the constant battles required to protect the building and related industries. This is one **BIG** reason why your membership is so important, not just to us but to you too!

Only through strength in numbers can we have sufficient influence with local, state, and national legislative and governmental agencies to make an impact within our industry.

Along with BIA GV's representation of the industry's legislative interests on all levels, joining the BIA of the Greater Valley would also give you a significant number of personal and professional opportunities including:

- Local, Regional, State and National "clout" in dealing with issues which threaten our livelihood
- Preferred insurance rates for Workers Comp, General Liability, Health and Dental insurance programs
- Receive and be included in the BIA GV Annual Directory and BIA GV website
- Use of the BIA GV name & logo to enhance your business
- Relationship building/networking opportunities at BIA GV events, Committees and Volunteering opportunities
- Promotions on our social media across different platforms
