Builder Program

EFFORTLESS HOME IMPROVEMENT™

Classic Design Interiors was founded in 2006 by Tiffany Gomes, its President. Tiffany spent seventeen years working her way up through Walters Carpet, which eventually became Grand Floor Designs and then CTI. At the time she left CTI, Tiffany was Senior Operations Manager over their Roseville, Reno, Lodi, and Lathrop locations managing over $100M in annual builder sales.

Working initially as a flooring Project Manager, Tiffany created numerous processes and procedures which enabled the Lodi Builder Department to grow 500% over the course of 6 years. Her passion for operational excellence led her to create numerous SOP manuals that resulted in a 4% net profit increase for the company.

In 2006, CTI moved from Lodi to Lathrop, and after careful deliberation and an extensive business plan, Tiffany decided to take control of her own destiny and open Classic Design in the same location she'd worked since 1989. For the first several years of business, Classic Design focused on remodeling and custom housing. Tiffany earned both her C15 flooring license as well as her B general contracting license from the CSLB and Classic Design quickly grew into the premier destination for Effortless Home Improvement® in the Central Valley.
